Subject: Re: West Belconnen Urban Development - Draft Variation - Comment

To the Territory Plan Section.

Hi

Regarding the West Belconnen Urban Development, I have a comment about the Transgrid Canberra substation.

Not sure if you are aware of this but the substation emits a loud humming noise which can be heard by all the surrounding houses.

We live in the west macgregor development opposite the substation and we have been engaging Transgrid for years about the noise, and still are. They recently undertook some works to lessen the noise but you can still hear it.

A lot of residents aren't happy about it.

Just thought you should be aware.
